

# Hugh Kim

JavaScript Developer

📍 Rowland Heights, CA 📞 +1 (909) 367-5791 📧 [kimhugh9@gmail.com](mailto:kimhugh9@gmail.com)

## Summary

A focused and adaptable software developer with comprehensive experience in JavaScript frameworks & libraries for building scalable, high-performance applications.

## Experience

JavaScript Developer

ImageCraft

<https://imagecraft.art>

- Designed and created web application MVP from scratch within 2 months, including user authentication, image upload, data management and gallery.
- Implemented gallery system with artist-specific tags/themes/privacy settings.
- Integrated subscription-based features and payment system with Stripe.
- Created flexible component templates with Chakra-UI, supporting application usability from ultra-wide to mobile screens.
- Developed custom modules for slideshow and domain page builder using Swiper and QuillJS, respectively.
- Languages:** JavaScript, HTML/CSS
- Technologies:** React.js, Redux-Toolkit, React Router, Chakra-UI, Github
- Additional Libraries:** masonry-layout, QuillJS, Swiper

April 2024 - Current

Palo Alto, CA (Remote)

Software Engineer

Finicast

<https://finicast.com>

- Introduced unit testing and CI/CD pipeline on both client and server with Jenkins.
- Defined developer API endpoints in Express/Node.js for enterprise developers to access data securely.
- Developed simple and complex graphing in Plotly.js for customer spreadsheet data hosted in proprietary engine.
- Implemented monitoring and alerting system for system access, outtages and possible DDOS attacks using Splunk.
- Collaborated with project managers and executives directly to design new features and improve usability.

April 2021 - June 2022

San Mateo, CA

**Languages:** JavaScript, HTML/CSS, SQL

**Technologies:** React.js, Node.js, Express.js, Redux, React Router, Splunk, Gitlab

**Additional Libraries:** Plotly, Reactstrap, Jest, React Testing Library

## Education

University of California, San Diego

Management Science

<https://economics.ucsd.edu/>

Economics with focus in Finance and Operations Research.

September 2017 - June 2019

BSc
