

# Hugh Kim

Software Developer

📍 Rowland Heights, CA

📞 +1 (909) 367-5791

@ [kimhugh9@gmail.com](mailto:kimhugh9@gmail.com)

## Programming Languages

### JavaScript

### HTML/CSS

### SQL

## Libraries & Frameworks

### React

### Node.js, Express

### Reactstrap, Bootstrap

### Chakra-UI

## Tools & Platforms

Gitlab                  Github

Ubuntu                  Splunk

JIRA

## Skills

### Web Development

Responsive Design

Cross-functional Collaboration

Task Management & Delegation

## Personal Interests

Archery

Running/Hiking

Karaoke

Audiobooks

## Summary

A focused and adaptable software developer with comprehensive experience in JavaScript frameworks and libraries for building scalable, high-performance web applications.

## Experience

### JavaScript Developer

ImageCraft

🔗 <https://imagecraft.art>

April 2024 - Current

Palo Alto, CA (Remote)

- Created web application MVP from scratch within 2 months, including user authentication, image upload, data management and gallery.
- Implemented gallery system with artist-specific tags/themes/privacy settings.
- Integrated subscription-based features and payment system with Stripe.
- Designed flexible component templates with Chakra-UI, ensuring seamless user experience across various screen sizes.
- Developed modules for slideshow and domain page builder using Swiper and Quill, respectively.
- **Languages:** JavaScript, HTML/CSS
- **Technologies:** React, Redux-Toolkit, React Router, Chakra-UI, Github
- **Additional Libraries:** masonry-layout, Quill, Swiper

### Software Engineer

Finicast

🔗 <https://finicast.com>

April 2021 - June 2022

San Mateo, CA

- Introduced unit testing and CI/CD pipeline on both client and server with Jenkins.
- Defined developer API endpoints in Express/Node.js for enterprise developers to access data securely.
- Developed simple and complex graphing in Plotly.js for customer spreadsheet data hosted in proprietary engine.
- Implemented monitoring and alerting system for system access, outtages and possible DDOS attacks using Splunk.
- Collaborated with project managers and executives directly to design new features and improve usability.
- **Languages:** JavaScript, HTML/CSS, SQL
- **Technologies:** React, Node.js, Express, Reactstrap, Redux, Gitlab, Splunk
- **Additional Libraries:** Plotly, Jest, Puppeteer, React Testing Library

## Education

University of California, San Diego

Management Science

B.Sc.

Concentrations in Finance and Operations Research.
